## Caledonia County Fair.

The premium list of the Caledonia county fair was issued from the CALEDONIAN office this week and a copy will be mailed by Charles G. Braley, secretary, upon request. The booklet speaks the biggest fair that has ever been given here in many ways. The premiums for stock have been substantially increased and a larger exhibit than ever ought to follow. Premiums are offered in all classes for milking bred Shorthorns and also for county classes. The latter can compete in the open classes, too, provided the extra entrance fees are paid. In the department of horses the management have offered premiums for ponies and for draft horses. The premiums are greatly increased for swine. The purses for the races are among the largest in New England or Canada, and are sure to attract fast horses. These include three \$500 stake races and one \$400 purse in the free-for-all.

The vaudeville attractions have been selected with the greatest care, with the idea of entertaining everybody—Paul Batty's Bears, the Seven Grunathos, lady acrobats, Francis and Francisco, the royal fun makers, the Vorlop, Octette feminine dancers and salon celebrities, direct from Paris.

Special trains on all railroads, with low rates, will insure large crowds.

Remember the dates, September 15, 16 and 17.

Boston excursion Sept. 1. See page 1.

## Decision on our Village Water.

By a pro forma decree which has just been made by Judge A. A. Hall of St. Albans the bill in chancery brought by the state board of health against this village to restrain the inhabitants from using for domestic purposes the water from the Passumpsic river, is adjudged sufficient, and the demurrer to the bill by the village is overruled. The case will now go to the supreme court on appeal by the village.

This case is important as it is the first proceeding brought under the authority of act No. 115 of the acts of 1902, as amended by act No. 139 of the acts of 1904, to enforce an order of the state board of health.

On July 7, 1906, the state board of health found from analysis that the water was contaminated and a menace to public health. Users of the water were notified not to use for potable purposes, but this order was not complied with and last October State's Attorney Hill and Attorney General Fitts brought a bill in chancery to enforce the order. The village demurred to this and filed the same with the court last January.
